# “Mono”

Foam mattress for preventive care and pressure release

## Description

Pressure reducing foam meeting the highest demands to quality, durability and preventive care. Suitable for patients at high-risk for developing pressure ulcers, and patients with pressure ulcer degree 0 – 3.

## Material

The Mono mattress is made of Oeko certified “Waterlilly” foam, a high elastic cold foam that is environmentally friendly in both production and material. The high density ensures a long lifetime of the mattress.

## Design

The surface towards the patient is divided in 5 zones cut in different depths, equivalent to the different weight of the body parts. It has a wide and stabile foam frame to ensures stability when mobilizing the patient in and out of bed. The Mono mattress is constructed to be turned (one site), which also contributes to extending the lifetime of the mattress.

## Moisture drainage and ventilating

The Mono mattress has strong Oeko-tex certified incontinent PU cover, with a high degree of breathability – more than 800 g/m<sup>2</sup> /24 timer. This ensure that heat and moist are transported out and away from the mattress. The open celled foam also contributes to good ventilating. The zipper is covered with a wide overlap to prevent moist from entering the foam.

## Friction and sliding pressure (shear)

The foam is lined with a thin textile tricot that makes the cover slice smooth and easy over the foam. This way it is the cover that moves f.ec. when using the functions of the bed, and not the patient skin that is being strained. Furthermore, the cover has a special suitable surface to prevent shear.

**Easy handling:** 4 reinforced handles, 2 in each site, zipper in 3 sides of the cover together with the fabric-covered foam center makes handling of the mattress very smooth and easy.

## Recommended for:

Preventive care  
Pressure release  
Immobile users  
Pain patients  
Underweight patients  
Warm patients  
The dement section

## FACTS:

Density: 42 kg/m<sup>3</sup>  
Hardness: 130 N  
Foam: Fire retardant HR PUR foam  
Cover: Washable up to 95o.  
Weight: 10 - 12 kg (depending on size)  
User weight: 0- 150 kg.

## Size and item no.:

80x200x14 cm Item no: 10-007367  
83x200x14 cm Item no: 10-007745  
85x200x14 cm Item no: 10-007744  
90x200x14 cm Item no: 10-009700  
105x200x14 cm Item no: 10-010429  
110x200x14 cm Item no: 10-010364
